Fusion Bullet Drysuit

As our premium **Fusion** model, the Bullet has been engineered for the harshest diving environments. The **Fusion** line is based on our patented Dual Layer System originally designed for the Special Forces. The Bullet features a breathable AirCore inner layer paired with a protective super-stretch neoprene outer layer. Strategically placed **GatorTech Pro™** armor and reinforced seams ensure maximum durability. The Bullet is a rugged design that will endure any adventure

Technical Features

- **New 2022 feature:** SLT FlexNeck
- Environmentally friendly PAH (Polycyclic Aromatic Hydrocarbons) free neoprene
- Durable Small Diamond coating on shoulders and arms increases durability
- Watertight taped interior seams for watertight integrity
- Highly visible ultra-reflective safety tape
- Abrasion resistant Powertex reinforcement panels
- Wide opening cargo pocket with mesh drainage panel for extra storage

Blizzard Pro

\$2716.00

Stay warm and dry in the coldest waters! The **Blizzard Pro** is an advanced neoprene drysuit made with premium compressed Yamamoto neoprene. The **Blizzard Pro** includes SLT technology for the wrist seals, a large opening cargo pocket, a mesh drain panel, and ultra-reflective safety tape. The **Blizzard Pro** comes with comfortable suspenders and is available with integrated socks.

Technical Features

- Environmentally friendly PAH (Polycyclic Aromatic Hydrocarbons) free neoprene
- Durable Small Diamond coating on shoulders and arms increases durability
- Watertight taped interior seams for watertight integrity
- Highly visible ultra-reflective safety tape
- Abrasion resistant Powertex reinforcement panels
- Wide opening cargo pocket with mesh drainage panel for extra storage

New update

Alaskan

The **Alaskan** is our latest design in trilaminate drysuits. It features a telescopic torso and front zipper that allow the diver to equip himself. The neck and wrist seals are produced in latex and boots have reinforced soles for increased durability.

Technical Features

\$3101.00

- Telescoping torso for ease of donning
- Adjustable crotch strap and suspenders secure suit in place
- Latex wrist & neck seals keep water out
- Spacious pockets with attachment loops
- Durable material overlays in seat and knees for longer life in high-wear areas

Thermal Fusion Undergarment

\$623.00

The Thermal Fusion is Aqua Lung's highest performance diving undergarment, maximizing warmth while providing unrivaled flexibility and fit.

Our patented Thermal Core Technology, a dual layer design, offers the diver with an unlimited range of motion while maintaining a streamlined fit. The inner layer, a relaxed cut thermal core constructed of Polartec® 200 fleece, delivers superior warmth. The outer layer, a Polartec® Power Stretch Pro® fleece, applies compression which streamlines the inner core to the divers body. The result is a custom fit with maximum range of motion

The superior insulation value of the Thermal Fusion has been validated in independent laboratory tests by the Sport Innovation Center (SPIN).

SPIN collaborates with Olympic and Paralympic athletes and is a breakthrough leader in sport technology. They performed cold water immersion and controlled cold weather environmental tests to determine the effectiveness of dive garments in protecting skin and core temperatures.

Comparative testing against our competitor's top rated undergarment confirms the Thermal Fusion superiority. The science proves that the Thermal Fusion performed best overall in preventing heat loss in extreme environments!

The inner layer, **Polartec® 200 fleece**, delivers superior warmth.

The outer layer, **Polartec® Power Stretch Pro® fleece**, streamlines the inner core to fit the diver's body

Key Features

- Complement with MK2 Jacket, MK1 or MK0 Undergarments
- Removable sleeves
- 2 zippered vertical chest pockets
- 2 large fleece-lined hand warming pockets
- Thumb loops for easy donning
- Stirrups keep garment in place when donning
- Non-corroding YKK zippers used throughout
- 2-way zippered rear convenience panel
- 2-way torso/convenience zipper
- 1mm LYCRA®/neoprene 2-way stretch expansion panels at waist and above knees for optimal mobility

\$181.00

This one piece, bamboo fiber base layer, is ideal under any of our undergarments for excellent moisture wicking performance. The MK0 can also be worn as a stand alone layer in moderate waters.

Technical Features

- Blend of bamboo and Spanflex uses an environmentally friendly production process
- Spanflex content results in extreme stretch for a better fit
- Moisture wicking
- Antimicrobial
- Odor resistant
- YKK® two-way front and rear relief zippers
- Ankle stirrups
- Thumb loops

MK3 Sock

\$85.00

Inspired by the Canadian Military who regularly dive in frigid waters, the MK3 Sock is constructed of the following three layers:

- (1) Outer nylon with heel stretch panels
- (2) Compression resistant Primaloft®
- (3) Inner fleece lining

MK2 Undergarments

The MK2 undergarments are extremely versatile, with the ability to layer up or down to match a wide range of diving conditions

Stylish and feature rich, the MK2 Jacket converts to a vest and can be layered with the MK2 John for added thermal protection

Key Features
