

Wilson Diving Presents: **BONAIRE**

Oct. 24 - Nov. 1, 2014

Bonaire has long been known as the "Shore Diving Capital" among divers. The island's coastline is entirely protected by a large marine park, meaning all the corals that fringe the island coasts are kept pristine. This, in conjunction with the smaller crowds all year means amazing viz levels: in some places up to 30 meters. There are upwards of 90 dive sites that surround the island giving divers a huge selection to choose from.

We are staying at Buddy Dive Resort. Every room will have a pick-up truck at their disposal to reach the dive sites - unlimited shore dives are included in the package.

Package includes:

- Return airfare from Victoria
- 7 nights accommodation at Buddy Dive Resort
- Daily breakfast
- Up to \$75 food credit at poolbar restaurant (per person)
- Unlimited shore diving
